# As a business owner, you don't want any surprises.

---

Do I need a lawyer  
to incorporate?

Do I need to incorporate  
my business?

How do I  
incorporate?

How long will it take to  
incorporate?

How much will it cost me  
to incorporate?

At Aluvion, we are driven by our belief in Doing Legal Differently™. We come from entrepreneurial and business backgrounds. We understand the challenges entrepreneurs and startups face and we have developed a solution: Bay Street In A Box™.

# Incorporation is a key step in setting up your business, the right way.

Incorporating your business will help you gain credibility and benefit from legal and tax advantages. But do you know how to optimize your position?

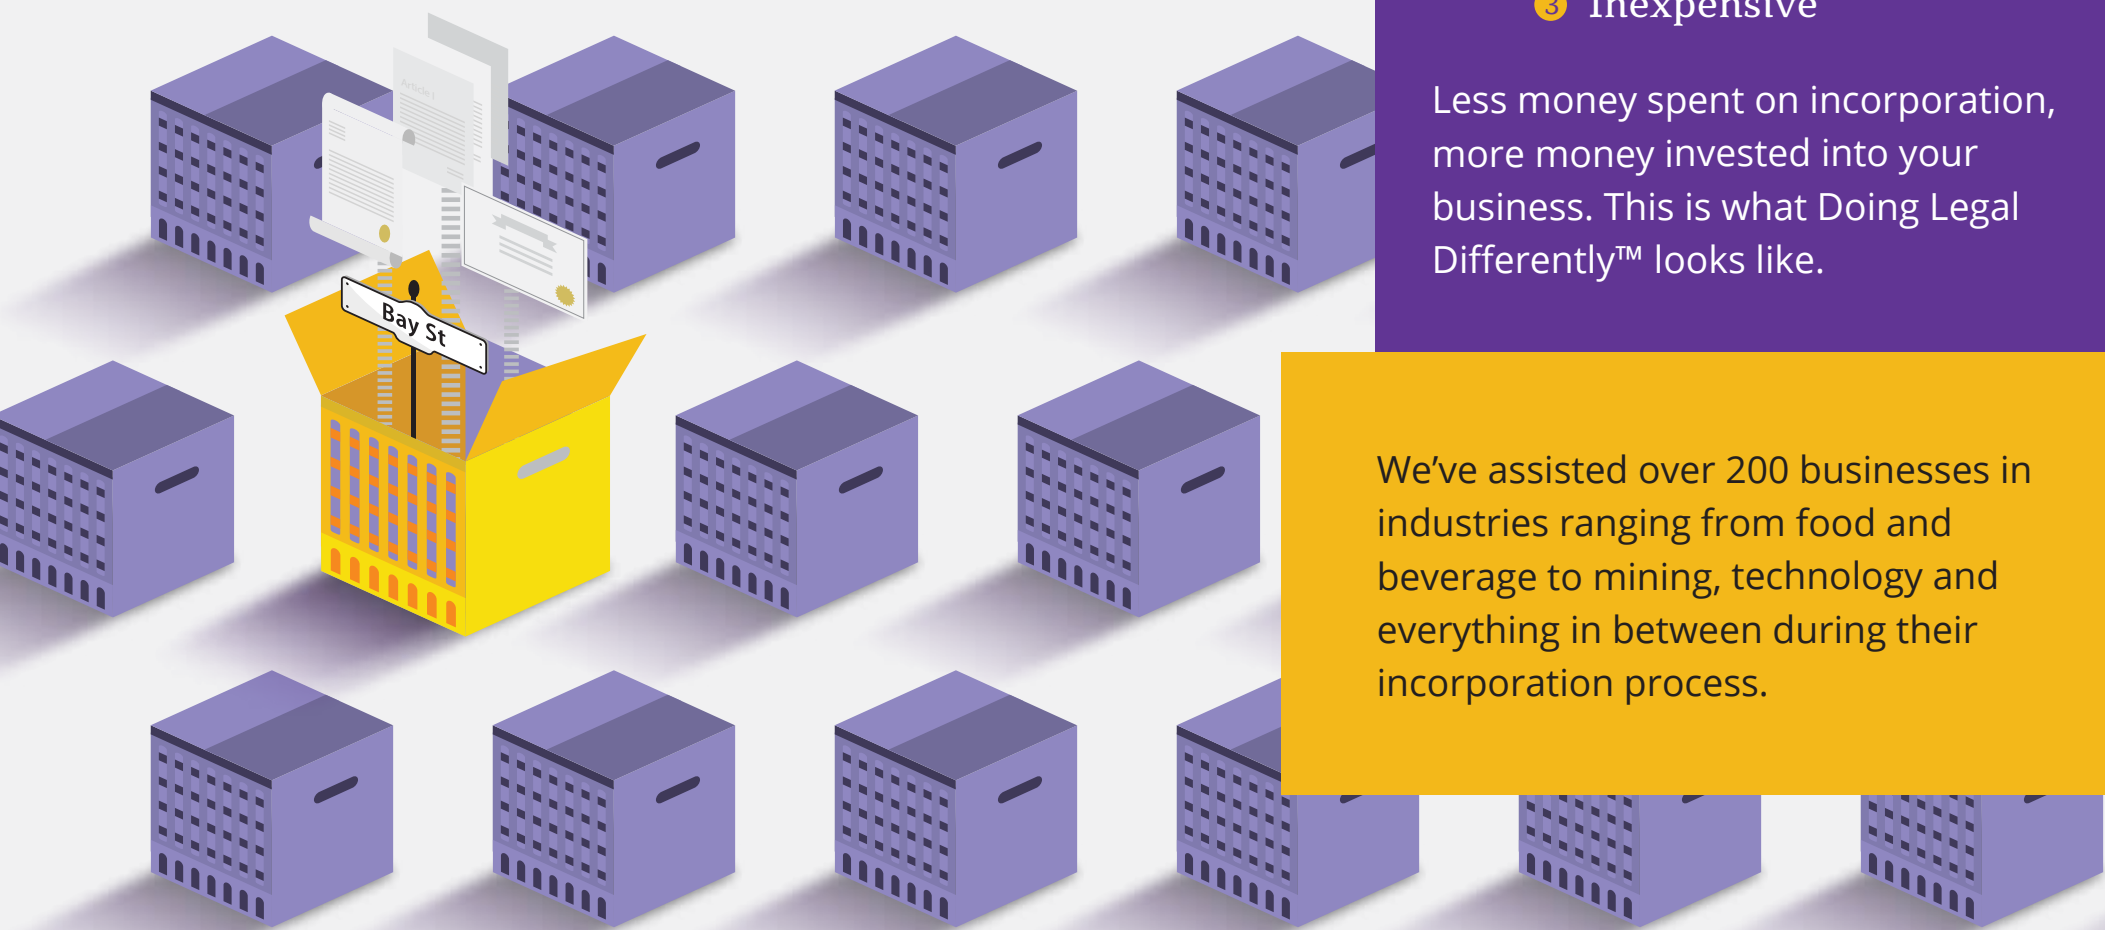

You can incorporate a business online for a small fee, without the assistance of a lawyer. If you go this route, are you sure of the required steps to take for your particular business?

Although you don't need a lawyer to incorporate your business, having the right one can save you time and endless headaches by ensuring your business is built on a solid legal foundation.

Depending on your needs, your lawyer can assist you with choosing the appropriate business structure, drawing up appropriate contracts and agreements, securing equity financing, leasing commercial space, and more.

# We know what you need today, tomorrow, and as your business grows.

Bay Street In A Box™ offers a comprehensive incorporation process that is:

- 1 Transparent
- 2 Efficient
- 3 Inexpensive

Less money spent on incorporation, more money invested into your business. This is what Doing Legal Differently™ looks like.

We've assisted over 200 businesses in industries ranging from food and beverage to mining, technology and everything in between during their incorporation process.

# The smart way to launch your business.

Bay Street In A Box™ offers the full suite of legal document preparation and advisory services required to incorporate your business, including:
